

Educator Resources

May is Asian American & Native Hawaiian/Pacific Islander (AANHPI) Heritage Month.

Hello, Educators!

Asian American Voices for Education (AAVED - pronounced "avid") was founded by a group of Georgia parents, educators, and community members in 2021.

Georgia's students deserve to know that they **belong** and are **valued** in their classrooms so that they can become **change-makers**. We see this being accomplished as students learn our interconnected history and the humanity of all people. AAVED provides the Asian American perspective in this framework.

Resources are included in this for you. Please join us as we provide FREE professional learning opportunities throughout the year. Check us out on our website (www.aaved.org) or follow us on social media (@aaved_org) for more information.

Sincerely,
Asian American Voices for Education
